

# Moravia

## CH-13200~CH-13231

Our Moravia chandeliers are right out of the late 1800's. Their gasolier design comes complete with wide custom key valves and vented glass holders to insure a maximum air flow to the burners. Of course, in this case, the burners are actually medium base brass shell sockets, but the sentiment is there. We build these lights from brass. The rope tubing, the fine brass filigree around the support bands... everything is solid brass. Moravia can be ordered in major sizes for rooms that can handle it. Just right for 1880's buildings and great conversation topics for all others.
