

# Minsk

## CH-15600~CH-15631

Our Minsk fixtures are a union of traditional wagon wheel designs coupled to extra large glass cylinders. The "wheels" of Minsk lights are made from thick walled tubing in lieu of flat bar stock as similar pieces are constructed. These curving edges produce a smoothing reflectivity that would not happen with sharp metal edges and the result is pretty dramatic. In the chandelier version, we join the descending rings together with strap and buckle designs for an old world look. Glassware is traditionally clear seeded, but can be ordered frosted or white. Very healthy lights for big places!
